TANZANIA

Junior Data Scientist

Data Scientist student and Statistician with skills in data analysis, statistics, and machine learning. Experienced in using Python, SQL, R, STATA, Excel and data visualization tools like Power BI to collect, clean, analyze, and present data clearly. Able to turn raw data into useful insights that support decision-making and business planning. Skilled in creating predictive models, conducting research, and solving problems using data. A hardworking and fast learner with good communication, teamwork, and analytical skills, eager to apply data science and statistical knowledge to real-world challenges.

Educational Background

Bachelor of Science, Data Science | Eastern African Statistical Training Centre | October 2023 – Present
Diploma of Statistics | Eastern African Statistical Training Centre | October 2021 – July 2023
Advance Level Certificate | Baobab Secondary School | July 2019 – March 2021
Ordinary Level Certificate | Daarul Arqam Secondary School | January 2015 – November 2018

Work Experience

i. **Founder | Data Scientist**

Maarifa Nest. Self Employed
April 2026 - Present
Tanzania

Helping Organizations and Individual turn data into insights while promoting AI awareness through training in schools and institutions and Providing Research Consultant to the Organization and individual.

ii. **Statistician**

Office of Chief Government Statistician of Zanzibar (OCGS)
Field Work
July 2025 – October 2025
Zanzibar, Tanzania

iii. **Trainer District Level | Supervisor population Census 2022**

Office of Chief Government Statistician of Zanzibar (OCGS)
Contract
July 2022 – September 2022
Zanzibar, Tanzania

Skills

- Data Analysis & Interpretation
- Survey Design & Data Collection Methods
- Statistical Software (R, SPSS, Stata)
- Programming (Python, SQL)
- Machine Learning & Predictive Modeling
- Data Cleaning & Preprocessing
- Data Visualization (Power BI, Tableau, Excel)
- Report Writing & Data Presentation
- Research Methodology
- Monitoring & Evaluation (M&E)
- Project Management
- Critical Thinking & Problem Solving
- Communication & Presentation Skills
- Teamwork & Collaboration
- Training & Facilitation

Professional Achievements

- Successfully led data analysis projects that informed policy and decision-making processes
- Designed and implemented multiple surveys and research tools used in institutional and national-level studies
- Developed machine learning models that improved data prediction accuracy and analytical efficiency
- Served as Lead Trainer for the 2022 Population and Housing Census in Zanzibar, building capacity of enumerators and supervisors and ensuring high-quality data collection
- Played a key role as Supervisor and Trainer in the 2022 Population Census
- Attended professional seminars on Artificial Intelligence at IITM, Madras in collaboration with DIT, Dar es Salaam (2024) to enhance technical expertise and stay updated with emerging technologies
- Attended seminars on BOT project implementation and management to gain insights into automation and innovative data solutions
- Produced high-quality analytical reports and dashboards that enhanced data-driven planning
- Trained and mentored students and professionals in data science, statistics, and research methods
- Improved data quality through effective data cleaning, validation, and preprocessing techniques
- Provided consultancy services delivering evidence-based insights to clients across different sectors

Training & Certifications

- **Artificial Intelligence Seminar** – IITM, Madras & DIT, Dar es Salaam, February 2022 – *Certificate Awarded*
- Professional Gathering: Themes from theory to practice: Building practical mindset for future statisticians, data scientist and actuaries |Eastern African statistical Training Centre , May 2026
